

## WHAT IS BNB RISE?

BNBRISE IS A HYPER-DEFLATIONARY HYBRID TOKEN, WHICH REWARDS INVESTORS FOR HOLDING TOKENS, WHILE ALSO INCORPORATING THE BUYBACK APPROACH & BNB REWARDS CURRENTLY PRESENT IN THE STOCK MARKET.

# WHAT IS BUYBACK?

- IF A PARTICULAR STOCK HAS LOW VALUE, BUT HAS THE POTENTIAL TO PERFORM BETTER IN THE FUTURE, OFTEN COMPANIES WILL ANNOUNCE A BUYBACK OF THE STOCK IN THE OPEN MARKET. ONCE COMPANIES ANNOUNCE THE BUYBACK, INVESTORS GAIN MORE CONFIDENCE TO PURCHASE, AND HOLD THE STOCK AS WELL. ADDITIONALLY, THE DEMAND INCREASES AS THE COMPANY STARTS BUYING THE STOCK, WHICH ULTIMATELY WILL DRIVE THE STOCK TO RAISE. AT BNBRise, WE CHOSE TO APPLY THE BUYBACK CONCEPT TO CRYPTOCURRENCY, AND ENCOURAGE INVESTORS TO HOLD THE TOKEN.

# HOW?

- BNBRise COLLECTS 6% BUYBACK TAX ON EACH TRANSACTION AND MAINTAINS IT UNDER CONTRACT. WHENEVER A SELL HAPPENS, A FRACTION OF THE BUYBACK AMOUNT IS USED TO AUTOMATICALLY BUY FROM THE LIQUIDITY POOL AND BURNS THOSE TOKENS ACCORDINGLY.
- **WHAT'S SO GREAT ABOUT THAT?**
- THERE ARE 3 ADVANTAGES:
  1. RAISE IN VALUE
    - AFTER THE TOKENS FROM THE LIQUIDITY POOL ARE BOUGHT, THE NEW BNB AMOUNT IS ADDED TO THE POOL AND THE AMOUNT OF THE TOKENS ARE REDUCED, WHICH RESULTS IN AN INCREASE IN PRICE.
  2. FREE BNB
    - ONCE THOSE TOKENS ARE BURNT, IT IS LIKE ADDING FREE BNB TO THE POOL AS THERE ARE NO TOKENS TO SELL IN THE FUTURE.
  3. TRUST & RELIABILITY
    - INVESTORS CAN BE RELENTLESSLY HESITANT, AND OFTEN GET SPOOKED BY A BEARISH MARKET.
    - BECAUSE OF THE BUYBACK, INVESTORS WILL NEVER SEE MORE THAN 2 SELLS AT ANY TIME AND 98% OF THE TIME, THEY WILL ONLY SEE ONE SELL AS THERE WILL ALWAYS BE A BUY FROM THE CONTRACT.

# BONUS HOLDER ADVANTAGE

- 1% REWARDS REDISTRIBUTED ON EVERY TRANSACTION
- JOIN A TRUSTED NETWORK OF INVESTORS, WHO ARE CONFIDENT IN THE BUYBACK CONTRACT, AND UNDERSTAND THE POTENTIAL FOR GROWTH IN IMPLEMENTING THIS CONCEPT.
- ONCE THE INVESTORS KNOW THAT CONTRACT ALWAYS BUYS AFTER EVERY SELL, THEY FEEL CONFIDENT ABOUT RAISE OF THE PRICE AND CONTINUE HOLDING

## TAX BREAKDOWN

1% rewards to holders  
2% to liquidity pool  
6% goes to BNB pool to claim  
6% Buy-back tax  
Slippage: 16%

# FUTURE PLANS & BNBRise SOLUTIONS

**TIRED OF RUGS? WE'RE TIRED TOO, WE'RE ALSO ORDINARY PEOPLE JUST LIKE YOU WHO HAVE FELL VICTIM TO THESE RUG PULLS, NOWADAYS THE MARKET IS FLOODING WITH SCAMS THEREFORE WE ARE BUILDING OUR VERY OWN PLATFORM FOR PRESALES, FOR LOCKING LIQUIDITY, TO BE ABLE TO RENOUNCE OWNERSHIP AND IF AT A LATER DATE YOU CAN GET OWNERSHIP BACK IF COMMUNITY AGREES. EVERY COIN WILL BE VETTED AND RUGPROOF AND WE ALSO HAVE A ANTI BOT MEASURE FOR PRESALES, WE HAVE A SENSOR FOR ANY UNUSUAL ACTIVITY AND FOR BOTS – THEY WILL HAVE TO GO THROUGH A SERIES OF CAPTCHA TO SHOW IT'S A GENUINE PERSON**

Here at BNBRise, we are a dedicated genuine team who wants to give opportunities to every person to be able to become financially free!

**Despite the legitimate intentions of certain projects, many investors consider every coin has signs of a Rugpull scam which is why we decided to battle this issue**

**WE ARE BNBRise GOING TO THE MOON IS IMMINENT! 🚀**

# ANOTHER BNBRise FEATURE

**WITH 'BNBRise', WE WILL CREATE A NEW CONTRACT, WHERE OWNERSHIP OF ANY PROJECTS CAN BE TRANSFERRED TO THIS 'BNBRise' CONTRACT.**

- BNBRise will have no functions other than the ones which deal with ownership.
- We will build a new dApp to interact with the 'BNBRise'.
- Project owners can transfer their ownership free of charge. However, to re-claim the ownership, they have to pay a fee along with the approved voting of the community.
- Investors will have the option to vote on the dApp, whether the owner is allowed to re-claim or not, and owners can transfer back the ownership to 'BNBRise' after the issue is fixed.

**Another advantage of transferring the ownership to the contract is that the new liquidity which gets generated will be auto assigned to the 'BNBRise' contract and owner will not have accept to that and it can avoid the rug pull.**

# BNB REWARDS – HOW DOES IT WORK?

- BNBRise BRINGS THE MOST REVOLUTIONARY MECHANISM TO BSC ECOSYSTEM: EARN \$BNB JUST BY HOLDING \$BNBRise TOKEN
- BNBRise IS PROGRAMMED TO REWARD HOLDERS.
- 6% OF EVERY TRANSACTION IS TAKEN AND RE-DISTRIBUTED TO ALL \$BNBRise HOLDERS IN \$BNB.
- YOU WILL HAVE TO WAIT FOR A SPECIFIC DURATION CALLED CYCLE (DAILY) TO COLLECT YOUR BNB REWARD.
- IN THIS WAITING DURATION, IF YOU CONTINUE TO ADD MORE THAN 25% (THRESHOLDTopUpRate) OF YOUR \$BNBRise BALANCE, THE WAITING DURATION WILL PROPORTIONALLY ADD UP WITH THE CYCLE.
- (IF YOU SELL \$BNBRise IT DOES NOT AFFECT YOUR CYCLE)
- FOR EXAMPLE, ON THE FIRST DAY OF YOUR CYCLE, YOU ADD UP MORE 30% \$BNBRise, YOU HAVE TO WAIT:  $30\% * 1 \text{ DAYS} = 7.2 \text{ HOURS}$  MORE. THAT MEANS YOU CAN COLLECT BNB AFTER 1 DAYS AND 7.2 HOURS.
- BUT IF THE THRESHOLDTopUpRate  $\geq 100\%$ , THE WAITING DURATION WILL ADD UP MAX TO 1 DAYS I.E 2 DAYS.
- FOR EXAMPLE, ON THE FIRST DAY OF YOUR CYCLE, YOU ADD UP MORE 100% \$BNBRise, YOU HAVE TO WAIT: 1 DAYS MORE. THAT MEANS YOU CAN COLLECT BNB AFTER 2 DAYS.
- THIS WILL PREVENT CHEATERS WHO TRY TO ADD MORE \$BNBRise AT THE END OF EACH CYCLE.
